

Dinosaur Footprint Games

Play Memory—Print the foot prints out twice, cut out.

Place all pieces face down. Each player takes a turn, flipping over two pieces. If they are a match, they go again. If they are not, it is the next player's turn. Continue until all matches are found. Make this game easier by only using 10 words at a time.

Sight Word Spot—Place all of the words face up on the floor. One person calls out a word and the other player steps on it.

Word Walk—Use the footprints to create a path. As you walk it, say the words along the way.

Sight Words at Night—Place the words around the room. With the lights off, use a flashlight to find and read the words.
