twine, cardboard,
a picture

Step 1: Choose your picture. I used a 4x6.

Step 2: The cardboard backing needs to be as big as the picture plus the width of your sticks. I used a 5 x 7 piece.

Step 3: Glue sticks to the sides to the cardboard

Step 4: Glue the top & bottom sticks onto the sides at the edge of the cardboard

Step 5: Wrap a 12 inch piece of twine around each corner and tie in the back

LOG CABIN

Sticks:
similar in width
and length
approx. 24-32,
pine needles,
& large leaves,
+ flour, salt, cold
water

Step 1: Make salt clay
dough: 1/4 c. salt, 1/4 c. cold
water, 1/2 c. flour.

Step 2: You need 4 sticks for
each layer, set down 2 for
the sides and add two on
top. Every corner gets 4
round dough balls to secure
each layer.

Step 3: When your cabin is
big enough add a stick
across the top. Spread
dough across the top and
add leaves or pine needles
for a roof

PINECONE FLOWERS & PINEAPPLES

**Pinecones,
paint,
paintbrushes,
scissors, &
a grown up**

Flower or pineapple?
Flowers use the bottom inch of a pinecone
& pineapples use the whole thing.
Tip: Save the perfect pinecones for pineapples.

Flowers:
Step 1. Cut off the
bottom inch of a
pinecone
you might need a
grown up.

Step 2. Paint yellow in
the center and the rest
another color.

Step 3. Cut the
bottoms off smaller
pinecones and paint
the tops green for
leaves.

Pineapples:
Step 1. Paint the very
top green

Step 2. Paint the rest
yellow
